

# Lighten the Load on DSPs— Technology That Cuts Through the Admin and Frees Up Time for Care

## Supporting DSPs, So They Can Focus on What Matters Most

In I/DD organizations, DSPs are the backbone of daily care. But between the increased demands for documentation and endless administrative tasks, they're stretched thin. Foothold Technology's platform is here to help DSPs spend less time on paperwork and more time providing the compassionate, personalized support their clients need.

## How Foothold Technology Makes Life Easier for DSPs

- 1 Fast, No-Fuss Documentation: In, Out, Done**

Logging updates shouldn't take longer than the interaction itself. With Foothold Technology's simple interface, DSPs can easily document their work without getting bogged down in forms. That means less time spent on screens and more time with clients—where they make the biggest impact.
- 2 Real-Time Updates: A Team That's Always on the Same Page**

Seamless shift changes mean DSPs can pick up exactly where the last shift left off. Foothold Technology keeps everyone connected with real-time updates, so DSPs always have the latest info at their fingertips. No more hunting for details or guessing what's been done. Just clear, consistent support, every time.
- 3 Tools That Let DSPs Influence Care**

DSPs have insights into their clients' needs that are invaluable. Foothold Technology makes it easy for them to log observations that actually shape long-term goals and care plans. This isn't just data entry—it's a way for DSPs to contribute directly to meaningful outcomes for their clients.
- 4 Built for DSPs: Intuitive, Flexible, and Easy to Use**

Foothold Technology's platform is designed to fit naturally into DSPs' daily routines. Intuitive features, minimal training, and practical support mean DSPs can use the platform confidently—without the tech stress. Just simple, helpful tools designed with their work in mind.

# Lighten the Load on DSPs— Technology That Cuts Through the Admin and Frees Up Time for Care

## Why I/DD Leaders Should Invest in Tools that Support DSPs

DSPs don't get the resources they need to keep up with growing demands, which leads to burnout and high turnover. With Foothold Technology, I/DD leaders can give DSPs the tools they need to focus on what matters, reducing burnout and strengthening the whole team's resilience. It's not just about meeting demands—it's about creating a workplace where DSPs can thrive and bring their best to every interaction.
